Connect To Console:

First time connect to the console or another PS4 system:

Connect your wireless controller to your system using the USB cable, and then press the PS button.

Your controller pairs with your system and turns on.

PS:

. You`ll need to pair a controller when you use it for the first time and when you use your controller on another PS4 system. If you want to use two or more.

. After you`ve paired your controller, you can disconnect the USB cable and use your controller wirelessly.

. It`s possible to use up to four controllers at the same time. When you press the PS button, the light bar glows in your assigned color. The first controller to connect is blue, with subsequent controllers glowing red, green, and pink.

Re-connect to console paired before:

Power on console, and power on the game controller by press PS/Home button for 1 second, controller should connect to console automatically.

Wake Up game controller:

Game controller turns to sleep mode after 30 seconds searching but cannot connect to console, or without use for 10mins under connect mode. Press PS button for 1 second to wake up game controller.

Connect the mono headset:

For in-game voice chat, plug the mono headset into your controller`s stereo headset jack.
